

Lavers Hill, Beech Forest, Gellibrand to Colac bus routes

This weekly bus route is being trialled over three months to determine whether a year round service is viable. A gold coin donation not fares during this trial period is to encourage YOUR use of the bus service. If this trial service attracts sufficient users, it could become a regular fixture in Victoria's public transport system.

Colac Otway Shire's project *Bringing Communities Together* is funded by the State Government's **Transport Connections Project**, a cross-government initiative to help communities work together to improve local transport.
