

Social Inclusion Principles for Transport Engineers

VLGA Training

Thinking Transport website and Engineers Australia

present a **FREE** skills sharing seminar

Sustainable transport networks are built on the practical and strategic skills of engineers. However, these core skills do not equip Transport Engineers to take a variety of complex social factors into account.

This seminar provides Transport Engineers, Planners and others with unique access to experts who will provide an overview of the social implications of transport planning and how to respond.

Presenters include:

- **Professor Graham Currie**
Monash University Institute of Transport Studies
- **Emily Simatos**
Victorian Department of Transport
- **Kate Colvin**
Victorian Council of Social Services

Date: Friday 14 May 2010 9am – 12pm

Venue: Department of Transport Theatre, 121 Exhibition St, Melbourne.

This seminar is divided into a one hour overview, followed by a two hour comprehensive component, allowing those with limited time to attend for the first hour only.

Registrations close Friday 7 May at 5pm

Registration forms at www.thinkingtransport.org.au

To book places or for further information, contact Gordon Young, VLGA Local Government Transport Facilitator at Gordon@vlga.org.au or (03) 9349 7943.
